GILMORE, MERCHANT TAILOR, and General Outfitter, has removed his place of buginess to the store adjoining the Colonial Hote and opposite the Colonist Office, on Government street, fourth door from Yates, where he proposes to give his old friends and new customers a chance on the principle of quick ales and small profits.

FELL'S COFFEE, superior to any other manufactured on the Coast, may be obtained of all respectable cealers throughout the Colony.

EDITOR BRITISH COLONIST,—Can you not rouse the good people of Victoria to a sense of their duty and find some good and trusty of their duty and find some good and trusty man to represent them at Ottawa along with Nathan? I contend that Mr DeCosmos does not represent the feelings and interests of the people of Victoria. He is opposed to the Canadian farilf. He is opposed to the Canadian Government. He has thrown cold water on the railway scheme. In fact he has opposed in a systematic way every good and useful thing which did not emanate from himself. From his self conceit and egotism he would be an obstructive, and not the man for us at all. From his hasty egotism he would be an obstructive, and note the man for us at all. From his hasty temper and coarse language he can never have any influence or weight in a respectable Parliament and would do us more harm than good by his presence at Ottawa.

We want a man of sound and liberal views and of commercial knowledge, of goatlemanly demeaner and conciliatory manser to be out representative.

There are several excellent men who, if they would only consent to stand, would be sure of election; for instance, Dr Helmeken, Mr Findlay, Mr Turner, Mr J C Nicholson, the Mayor, Dr Powell or Mr Burnaby, Whatever Dr Helmeken does or wherever be goes, he deserves the best wishes and thanks of British Columbians. He has given us his continuous services for fitteen years without fee or roward, but, on the contrary, at a great loss and sucrifice.

Let the people at once select a good man and induce him to come forward. Mr De-

Influence of Temperature on Health

In the fall the difference between the temperature of night and day is greater than at any other time of the year. In the early summer the quicksilver sometimes rises as high during the day as in the most fervid summer weather; while at night it often sinks to an almost wintry point. The human body fnot being made of steel or India rubber, sensibly feels these tremenduous changes.
